## Portable Water Mist<sup>ers</sup>

**Portable Water Mister**

**Misting Head**

- Ideal for use where a water mister or misting system is needed but cannot be permanently installed
- Use it on your patio, at sporting events, or out in the middle of your yard while you work on your garden
- Easy way to keep potted plants cool on hot days
- With a slight breeze, mist has a tendency to travel up to 30 feet away from the water mister
- Lightweight stand breaks down in seconds for compact storage or transport inside a vehicle
- Available in Bronze or Silver stand colors
- Low Pressure Portable Mist<sup>ers</sup> are available with 2, 3, 4, 5, 7, and 10 misting nozzles
- High Pressure Portable Mist<sup>ers</sup> are available with 5, 7, and 10 misting nozzles
- Each misting nozzle has a built-in mesh screen filter to prevent nozzle clogging

Our Portable Water Mist<sup>ers</sup> are the ideal solution for where a water mister or misting system is needed, but cannot be permanently installed. The lightweight design of this misting product combined with its ability to break down in seconds without tools make it easy to move to different areas or transport inside of a vehicle. Besides mist cooling on hot summer days our portable mist<sup>ers</sup> are also ideal for dust control and keeping plants cool on hot summer days. With a slight breeze, the mist will travel up to 30 feet away from the water mister to provide a large area with mist cooling.
